**DETAILED ACTION**

***Claim Rejections - 35 USC § 102/ 35 USC § 103***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over 1444858. This reference discloses on page 1, lines 10-15 and lines 65-98 and page 3, lines 35-50 an article comprising a substrate having a coating comprising permanent magnetic particles dispersed in a binder. It is the examiner's opinion that applicants' article is anticipated by the article of the reference. The article of the reference would inherently contain microstructures of permanent magnet material and would inherently have a permanent magnetic moment. Also the process limitations in an article claim are immaterial from a patentable viewpoint.

***Claim Rejections - 35 USC § 103***

Claims 2-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over 1444858 for the same reasons as urged above. It is the examiner's opinion that the

limitations of these dependent claims are conventional and do not render these claims unobvious.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
